

SIGN UP FOR TEXTS OR NOTIFICATIONS FROM IGNITE!

WAYS TO SUBSCRIBE:

1. Sign up to receive text messages using the class code
2. Download the Remind app and join using the class code to receive notifications

INSTRUCTIONS:

- The **class code** represents which category you are signing up for; they are listed in the graphic below*. Use the corresponding class code using one of the methods to subscribe.
- EXAMPLE: If you are a student, you would:
 - ➔ Text **@tcfstudent** (as the message) to **81010** (as the recipient) to receive TEXT MESSAGE NOTIFICATIONS. If you have trouble with 81010, try **(774) 353-0907** for the recipient.
 - ➔ OR if you would prefer to get NOTIFICATIONS THROUGH THE APP, download the Remind app, create an account, and tap "**Join a Class**." You would then enter **@tcfstudent** when it asks for the class code. Or you can use the links located below to the right of the graphic.
- The main benefits of joining via the app: you can see past messages prior to joining, and if a picture gets sent, you can see the picture in the app rather than tapping the link to the picture that you would get with the text. *But choose the method that works best for you!*

*SEE THE CLASS CODES AND BASIC INSTRUCTIONS IN THE GRAPHIC BELOW:
